Project Description

Please provide an overview of the work completed with the Climate Resilience grant dollars. This must include the following: tasks accomplished, unanticipated challenges, project results, and a description of any education and outreach offered as a result of this project:

Project Impact

Please provide a detailed overview of how the work completed with the Climate Resilience grant dollars helped your farm better mitigate and/or adapt to climate change and become a more viable business. Please include any anecdotal (less flooding before or after project, etc.) and relevant collected data (examples include but are not limited to: soil carbon data, pesticide usage (before and after project), yields (before and after project), farm profitability (before and after project), energy use (before and after project), water use (before and after project), etc. These metrics are critical to show the impact of the funding and ensure we can keep providing these grants to farms in NH.

Testimonial

Please provide a testimonial that speaks to the impact the Climate Resilience grant has had on your farm business. This quote may be used in outreach for the grant, providing it here gives the conservation districts permission to use it. The conservation districts may contact you for further information.

Required Attachments

- Photograph (digital jpg format) of farm family or crew in front of the completed project with provided Climate Resilience Grant Banner. Please contact your conservation district to secure the banner for the photo. (Please note that this photo is optional and not due at time of report, we do encourage you to work with your Conservation District to get the banner and take the photo to promote the project success)

- Photographs that demonstrate the process and completion of the project

- A detailed summary of expenses and copies of invoices & receipts: the total of the invoices & receipts should match the total grant fund and match (please note farmer time and/or equipment use time can be used towards the required 25% of project costs but not billed). Please provide explanation as necessary

- Information on the metrics identified in application Reports or other documents created with these funds.
